

PROJECT PATTERN LEATHER COIN BANK

Printing Instruction

This project pattern is scaled to fit on letter & A4 size papers. You can print out the instruction and use the dimension as a guideline to create the actual size template.

Instruction

1. Follow pattern and cut out a paper template and transcribe pattern to veg split leather.
2. Place leather on a pouno board.
3. Use a 1mm drive punch or multi hole precision drive punch to punch out all the stitching holes.
4. Punch out the coin slot. Oblong drive punch recommended.
5. Cut out leather pattern.
6. Measure out thread and use saddle stitch to sew together. See saddle stitch video for details on how to hand sew.
7. Once one side is sewn repeat on the opposite side. Complete all sides so the house takes form.

ROOF INSTALLATION

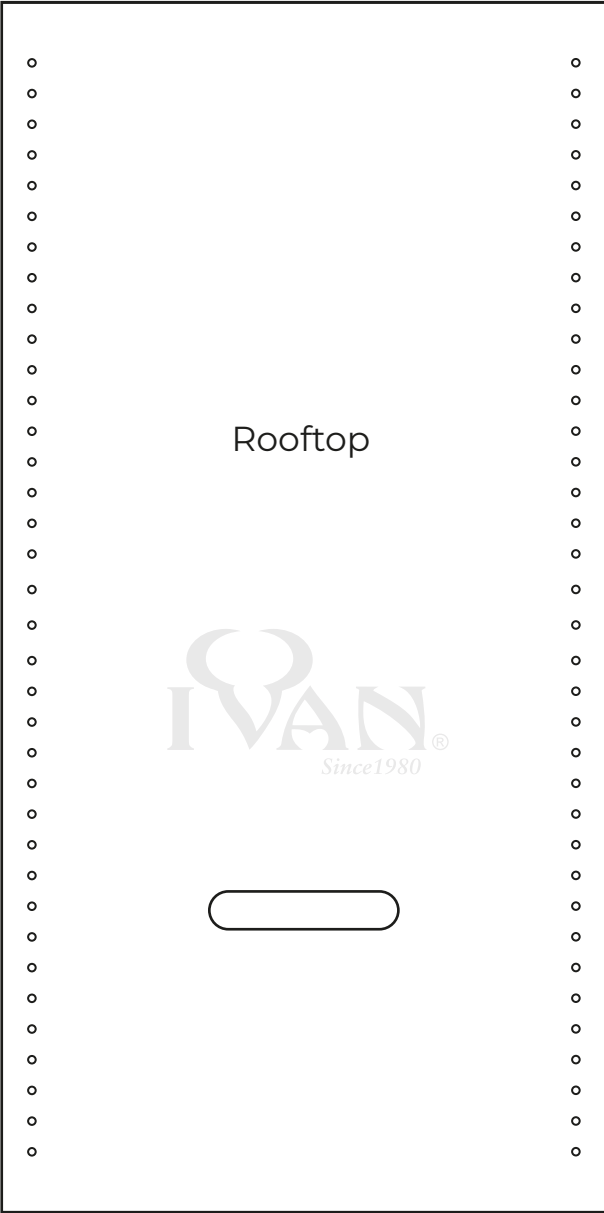

1. Glue the edge of both the roof panel and house panel where they connect.
2. Stick the roof panel to the house panel along the stitching holes maintaining hole alignment.
3. Sew the roof on the house panel.
4. Project complete.

Fun tip:

Use leather paint to customize a design on the leather coin bank to make a one of a kind creation.
