1. Skive your straps to approximately 2.4mm (3/32").
2. Cut out the strap pad and round off the ends with a Strap End Punch.
3. Strip the remaining straps into 25mm (1") and 12.5mm (1/2") widths using Strip Ease.
4. Cut out the front strap, back strap, and hanging strap using the 25mm (1") strap; then cut out the side strap and Keepers using the 12.5mm (1/2") strap.
5. Trim the hanging strap according to the pattern.
6. Apply Burnishing Gum to the back of the leather and smooth out the grain.
7. Use a stitching groover to draw 3mm (1/8") wide decorative lines along the edges.
8. Bevel the edges and burnish until smooth. (The keeper ends do not require polishing.)
9. Cut a 305mm (12") hitched webbing, paste it in the center of the strap pad, and then stitch together.
10. Measure and mark all hole positions according to the pattern and set aside.
11. Use the Marking & Punching Guide to mark front strap hole positions.

13. Punch out all holes with a Rotary Strap Cutter, and cut open a slip on the side strap.
14. Assemble the strap pad, front strap, and back strap sequentially using rivets. Attach clip D and sew the keepers together.
15. Insert keepers and buckle into the back strap. Fold the ends and install them with rivets. Attach the D-ring and swivel snap onto the hanging strap. Then install the side strap on the camera and buckle the Solid Clip Dees.
